REGULATIONS

Assignments: The assignments of all the international events organised in Spain are handled exclusively by the Spanish Officiating Committee (CEAT) in coordination with the governing bodies and their officiating departments.

Fees and expenses:

- The Tournament is responsible for paying the fees and reimbursing all the expenses (accommodation, travel and meals) as described below.
- Under special circumstances, the Spanish Federation may pay the International Chair Umpire's fee if requested by the CEAT.
- The number of workdays will depend on the assignments in accordance to the factsheet and/or the official letter submitted to the tournament by the CEAT. The weather or any issue not directly related to the official will not deduct any workday. For example, if a tournament elects to delay one day the starting date announced in the original factsheet, the official will be paid as he would be paid if the tournament had started in the date announced in the original factsheet.
- If a tournament deviates from the sanctioned dates, the organising committee will be responsible for paying the extra charges required to adjust the travelling dates.

Other expenses: *(Applied to all officials appointed by the CEAT and/or local committees, unless otherwise decided by the CEAT)*
